

# Internships

## Study Abroad Options

Credit-bearing Academic Internships:  
Show future employers that you have international work experience and can look at your profession and the world of work with a comparative lens. Ground what you are learning in your work setting abroad in a broader study of work and social relations in your chosen location.

Depending on the program:

- Coursework may be “front-loaded” to allow a shorter, but more intense internship experience
- Placements during the whole semester must be arranged to fit around other classes
- Some internships require previous relevant academic or work experience

Internships are typically project-focused with an analytic component to serve as the basis for evaluation

### LOCATION

- Universities and Programs in Africa, Asia, Europe, Latin America, and Oceania
