Approaches to psychology and human development vary greatly from culture to culture. Take a step outside the US and examine what methods of thought the rest of the world is practicing. What makes Denmark the happiest country on earth? How do child development practices in Europe or Asia compare with what we teach and practice in the US? What is cutting edge in cognitive science?

You can experience cross-cultural psychology first-hand during a semester or academic year abroad. Seek out programs where you can get hands-on experience working with children, conduct your own research, or participate in an internship. Explore your many program options on this flyer, and talk to a Cornell Abroad advisor for more detailed program information.
*See below for recommended programs. This is not an exhaustive list, nor a guarantee of major credit*

**AFRICA & THE MIDDLE EAST**
- University of Haifa
- University Of Cape Town, South Africa
- SIT: Tunisia, Emerging Identities in North Africa

**ASIA**
- Cornell in India: Nilgiris Field Learning Center (NFLC)
- SIT: Geopolitics And The Environment, Mongolia
